### Mission Statement

We provide highly trained dogs to perform tasks and support that would otherwise require human assistance for children and adults with physical and developmental disabilities. We engage the youth of the community in this process. We are a 501 (c)(3) non-profit corporation.

**There are no words to express our GRATITUDE for the volunteer and financial contributions we receive each month from our community to support our mission. Without it we would not be able to help our friends with disabilities. We will say it anyway: Thank you so much!**

Dog Facts: They have super sensitive hearing—some can hear sounds 250 yards away—100 times greater than humans.
